REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the limitation "generating an interference map...defining areas of constructive interference and areas of destructive interference...". Newly found reference Melvin, III(US 2006/0147815A1) is not prior art, as the filing date of the reference is Jan. 3, 2005. Melvin III discloses placing an assist feature based on locations of constructive and destructive interference nodes(claim 1). Melvin III differs from the instant claims in that Melvin III recites that the identifying the locations of interference is based on the layout in the placing assist features(claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caridad M. Everhart whose telephone number is 571-272-1892. The examiner can normally be reached on Monday through Fridays 7:30-4:00.
